EDUCATION

Pune Institute of Computer Technology   Pune, India
Bachelor of Engineering in Information Technology   *Nov 2022 – Present*

EXPERIENCE

Full Stack Web Developer Intern   May 2024 – Present
Infoogy   *Pune, India*

- Developing a full stack web application using Next.js 14, TypeScript, and TailwindCSS.
- Implementing server-side rendering (SSR) in Next.js to enhance SEO and performance.
- Designing and developing role-based authentication and authorization mechanisms using JWTs.
- Creating audit log trails to monitor and log user actions for enhanced security and accountability.
- Employing the MVC architecture to organize and manage application code efficiently.
- Utilizing React hooks for state management to ensure smooth and responsive user experiences.
- Building and maintaining RESTful APIs for seamless data communication between the client and server.

PROJECTS

PICT-Connect | *MERN stack*   pict-connect.onrender.com

- Developed a community-based web application to cater to students' needs.
- Facilitated activities such as asking questions, sharing experiences, and connecting with college mates.
- Built the frontend using ReactJS and TailwindCSS to ensure a modern and responsive user interface.

Reverse Coding | *ReactJS, TailwindCSS*

- Developed the frontend for a platform for coding competitions.
- Enabled real-time coding challenges for students to compete.

SKILLS

Programming Languages: Python, C++, JavaScript
Technologies: HTML, CSS, JavaScript, TypeScript, ReactJs, NextJs, MongoDB, MySQL, NodeJs, ExpressJs, TailwindCSS, Git, GitHub, Postman

ACCOMPLISHMENTS

Pupil Coder at Codeforces: max 1220
2 Star Coder at CodeChef: max 1510
Solved 250+ problems on LeetCode

VOLUNTEER EXPERIENCE

PICT IEEE Student Branch   Pune, India
Member   *2022 – 2026*
